TO WHOM IT MAY CONCERN

Calculation of Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA)

The letter Grades awarded to a student in all the courses (except audit courses) shall be converted into a semester and cumulative performance index called the Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA), to be calculated as follows:

$$S.G.P.A = \frac{\sum_{i=1}^n C_i \times P_i}{\sum_{i=1}^n C_i}$$

Where,

C_i = Number of credits of the i course of a semester for which SGPA is to be calculated

P_i = Grade point obtained in i course

$i = 1, \dots, n$, represent the number of courses in which a student is registered in the concerned semester.

$$C.G.P.A = \frac{\sum_{i=1}^m C_i \times P_i}{\sum_{i=1}^m C_i}$$

Where,

C_i = Number of credits of the i course, up to the semester for which CGPA is to be calculated. The CGPA shall be calculated taking all the subjects registered including a course in which 'F' grade is awarded till date starting from the beginning but if the student has cleared a course, in which the student had backlog, the new grade will replace the old grade while calculating CGPA.

P_i = Grade point earned in / course.

$i = 1, \dots, m$; represent the number of courses in which a student was registered till date.

Conversion of CGPA to Percentage

The conversion formula for CGPA to equivalent percentage for training and placement purpose is as follows:

CGPA	Equivalent percentage of marks
$4.00 \leq CGPA \leq 9.00$	$10 * CGPA + 5.00$
$CGPA > 9.00$	95.00
